

Badho Logistics Commercials

1. What This Document Covers

This document explains forward delivery charges and DTO charges for brand shipments moved through Badho Delivery partners. It is meant to make the rate logic, zone structure and brand responsibilities easy to understand.

2. Service Scope

Area	What it means for the brand
Pickup coordination	Badho coordinates pickup from the brand warehouse, fulfilment point or agreed supply location.
Pan-India delivery	Shipments can move across India wherever the delivery partner network is serviceable.
Shipment preparation	The brand packs the order and keeps invoice, order details, dimensions and weight ready before pickup.
Tracking visibility	AWB / tracking details are generated after shipment creation for order-level visibility.
Commercial settlement	Logistics charges and billing treatment follow mutually agreed commercial terms with Badho.

3. How Charges Are Calculated

Factor	Explanation
Chargeable weight	Higher of actual weight and volumetric weight.
Volumetric formula	Length x Breadth x Height / 5000. L, B and H are measured in centimetres.
Service mode	Charges vary by Surface or Express movement.
Zone	Final rate depends on origin, destination, routing and serviceability zone.
Taxes	GST will be charged additionally on the applicable logistics charges, as per the GST rate applicable at the time of billing.

4. Zone Definitions

Zone	Coverage description
Zone A	Within-city shipments
Zone B	Regional shipments / single connection and less than 500 km
Zone C	Metro-to-metro shipments
Zone D	Rest of India
Zone E	Jammu, Himachal Pradesh and North East, excluding Manipur
Zone F	Kashmir, Manipur, Ladakh and Andaman & Nicobar

Surface note: Zone C and Zone D may be split into C1, C2, D1 and D2 based on routing and serviceability.

5. Surface Forward Rates

All rates are in INR. Rates apply based on applicable weight slab, zone and chargeable weight.

Zone	0-2 kg	2-5 kg	5-10 kg	10 kg+
Zone A	58	1	56	17 / kg
Zone B	72	1	50	19 / kg
C1	77	27	103	22 / kg
C2	83	17	107	26 / kg
D1	88	23	129	26 / kg
D2	88	23	129	30 / kg
Zone E	125	10	134	30 / kg
Zone F	138	11	147	33 / kg

Surface slab interpretation: first slab covers 0-2 kg; second slab covers 2-5 kg; third slab covers 5-10 kg; after 10 kg, the applicable rate is charged per additional 1 kg slab.

6. Express Forward Rates

All rates are in INR. Express movement applies based on serviceability, selected mode and chargeable weight.

Zone	First 500 g	Additional 500 g
Zone A	24	22
Zone B	26	25
Zone C	44	38
Zone D	55	48
Zone E	70	63
Zone F	77	69

Express slab interpretation: first slab covers the first 500 g; after 500 g, the applicable rate is charged per additional 500 g slab.

7. Surface DTO Rates

All rates are in INR. Rates apply based on applicable weight slab, zone and chargeable weight.

Zone	0-5 kg	5-10 kg	10 kg+
Zone A	66	65	20 / kg
Zone B	71	71	22 / kg
C1	121	120	26 / kg
C2	121	120	26 / kg
D1	139	139	30 / kg
D2	139	139	30 / kg
Zone E	157	155	35 / kg
Zone F	172	171	38 / kg

Surface DTO slab interpretation: first slab covers 0-5 kg; second slab covers 5-10 kg; after 10 kg, the applicable rate is charged per additional 1 kg slab.

8. Express DTO Rates

All rates are in INR. Express movement applies based on serviceability, selected mode and chargeable weight.

Zone	First 500 g	Additional 500 g
Zone A	41	37
Zone B	44	43
Zone C	66	57
Zone D	83	72
Zone E	105	95
Zone F	116	104

Express DTO slab interpretation: first slab covers the first 500 g; after 500 g, the applicable rate is charged per additional 500 g slab.

9. Additional Commercial Parameters

Parameter	Details
Volumetric divisor - Surface	5000; Length x Breadth x Height / 5000, with dimensions in centimetres.
Volumetric divisor - Express	5000; Length x Breadth x Height / 5000, with dimensions in centimetres.
Fuel surcharge	No fuel surcharge as per the current commercial summary.
Exceptional operational charges	Peak season demand, adverse weather or extraordinary operational circumstances may attract additional charges, with advance intimation wherever feasible.
Tax	GST will be charged additionally on the applicable logistics charges, as per the GST rate applicable at the time of billing.
Rate currency	All rates are in INR.

10. Brand Readiness Before Pickup

Requirement	Brand action
Inventory readiness	Keep ordered SKUs and quantities available before shipment creation.
Packaging	Use safe, transit-worthy packaging suitable for product category, weight and destination.
Invoice and order details	Keep accurate invoice and order information ready at pickup.
Dimensions and weight	Share accurate shipment dimensions and weight for chargeable weight calculation.
Handover readiness	Keep packed shipment ready during pickup slot and ensure a contact person is available.

11. Key Notes

- Charges are calculated based on chargeable weight, serviceability zone and selected service mode.
- Chargeable weight is actual weight or volumetric weight, whichever is higher.
- Final charges may vary based on shipment size, route, serviceability, operational constraints and destination.
